

HWR-01-MBK

Highwire. Solo Pendant

Highwire is a gravitational balancing act, created by tension between two points and a weighted centre.

By weighting the cables with the luminaires, the cables lightly trace shapes in three-dimensional space, allowing the fixture to frame to any setting. These shapes are further accentuated by the light emanating from both sides of each disk, which illuminates the surrounding area and also the fixture itself. Up to five luminaires can be added to a single power drop.

HWR	O1				+	
Model	Pendant	Finish	Temperature	Canopy		

Model HWR	Highwire	Dimension Pendant Ø200mm X D35mm Ø8in X D1.38in	Weight 1.95kg 4.3lb	Dimming ELV	Input Voltage 120V 50/60Hz
Type O1	Solo Pendant	Dimension Canopy Plate Ø115mm X H6mm Ø4.5in X H0.25in	Material Aluminum Polycarbonate Plexiglass	Driver Integral in J-Box	LED Life 50,000h
Finish MBK BAL	Matte Black Brushed Aluminum	Dimension Canopy Mini Ø28mm X H16mm Ø1.1in X H0.63in	Temperature 2200K 2500K 2700K 3000K 3500K	Lamping 860lm 97CRI 12W	Warranty 2y
Canopy Plate Finish SBK BNI	Sandtex Black Brushed Nickel	Cable 3048mm 10ft standard Custom lengths on request			Certification CE Compliant Damp Rated 
Canopy Mini Finish MBK BAL	Matte Black Brushed Aluminum
