

DONUT - MODEL 195

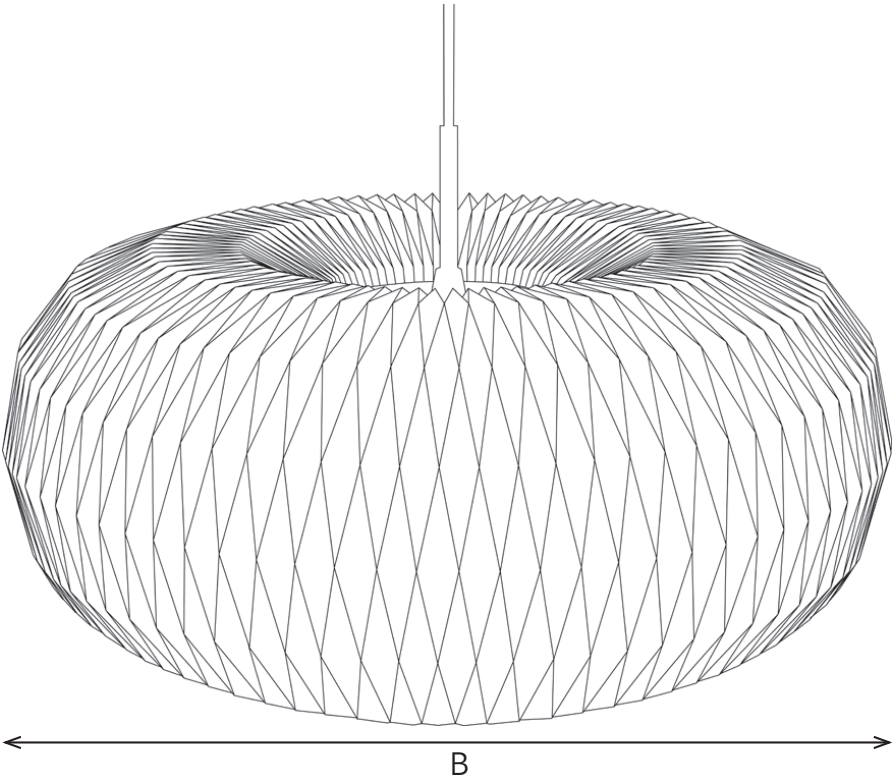

Design by: **Lise Navne Jensen**

Year of design: **2007**

SKU: LK-195L
LK-195LBR
LK-195S

SPECIFICATION

- Environment: Indoor
- Typology: Suspension
- Voltage: 110V
- Canopy: included / Ø 5 in
- Number of bulbs: 2
- Recommended lumen: 800
- Socket: E26
- Sealing class: IP20
- Designer: Lise Navne
- Design year: 2007
- Height: 26 / 28 cm - 10.2 / 11 in
- Diameter: 47 / 53 cm - 18.5 / 20.8 in
- Material: Stainless steel / Brass
- Shade material: Standard
- Cord material: Plastic
- Cord form: Round
- Cord color: White
- Cord length total: 300 cm / 118.1 in
- Certificates: CE

Model	Material	Height - A	Diam. - B	Plastic	Frame	Lightsource	Recommended Light
195S	Polished steel	10.2"	18.5"	X	Incl.	Incl. low-energy bulbs	2 x 800 lumen
195L	Polished steel	11"	20.8"	X	Incl.	Incl. low-energy bulbs	2 x 800 lumen

The lamp is widely known simply as “Donut”. The designer Lise Navne was inspired by the round shape of a doughnut when she created the original version of the lamp.

The lamp is now available in two sizes – small (Ø47 cm) and large (Ø53 cm), with a hand-folded lampshade. It is completely closed in the top and bottom with a highly polished steel plate; in the latest versions the metal details are made from brushed brass.

This provides an attractive finish to the very complex pleating.

The lamp is ready to hang, the hang-up is mounted with lightsources and 4 meters of cord. Because of the closed shape of the lamp, it is only possible to use low-energy bulbs, which has a lower degree off heating. This means that the lamp cannot be used if the house has a build-in dimmer system.

Every shade is hand folded in Odense, Denmark. This means that every product is unique and must be treated carefully to avoid breakage. Therefore you should always follow the instruction when handling a shade from LE KLINT.
