Gently dust the lampshade with a soft-bristled brush or feather duster to remove surface dust and debris. Avoid applying excessive pressure, as it may disturb the delicate yarn fibers.
For deeper cleaning, lightly vacuum the lampshade using a brush attachment or handheld vacuum on a low setting. Be sure to move in the direction of the yarn's weave to prevent tangling or pulling.

Stain Removal
Spot clean stains on the lampshade immediately using a damp cloth or sponge moistened with mild detergent and water. Blot the affected area gently to lift the stain without rubbing or scrubbing, which can damage the yarn fibers.
