VEIL DISC PENDANT INSTALL

1. Adjust cable length with housing. Attach cross bar to the junction box with two 8/32 screws.
2. Connect black and white wires with corresponding wire in the junction box with supplied connectors. Connect the green ground wire to the ground on the box.
3. Slide up junction box cover and tighten the strain relief nut to the corresponding Thread on the cross bar.
4. Install supplied bulb, then move the perforated disc, bottom rings and globe over the socket and carefully thread the globe into place.

To replace bulb use step 4 in reverse order.

*** We recommend that all fixtures be installed by a licensed electrician.**
